Anonymous – Message to the Government of Turkey OpTurkey
|  |

Alternative video:

provide them with weapons, lines of retreat and hide-outs on your territory. You are eager to give them anything, including air defense and heavy weapons, as long as it gets you closer to achieving your bloody goal of annihilating the Kurdish people.

Know that we will never allow it to happen! You have been warned! Operation Turkey begins. We have declared our solidarity against those who affiliate themselves with ISIS and those who control them, and we will not back down. We will continue attacking your banks and government institutions. We will shut down your civilian and military lines of communication. You will lose every possibility to govern your state, financial markets and armed forces. We will cripple the entire system of government. No one will go unpunished. This is not a threat, it is a promise.

We are anonymous.
We are legion.
We do not forgive.
We do not forget.
You should have expected us.

nan says:

I am suitably frightened and I'm not even 100% sure where Turkey is.

I do not support the outing of undercover law enforcement but I am an Avengers fan and you are the closest thing to civil justice I've seen.

Peace without violence
